

Human Trafficking and Domestic Violence are Huge Problems Worldwide!

Our New International Hand Sign Will Indicate that you are in Danger and Need Help!

- The hand sign can be done with either hand by showing your longest and shortest fingers.
- You can put either hand anywhere on your body, you can hold it still or pretend to scratch yourself.
- You can also put your hand on any object and if or when possible close one eye.
- It's uncommon and looks odd, no one holds their fingers like that.
- It's very diverse, discreet and easy to get people's attention indicating you need help.
- Because there are so many ways to do it, it can be done discreetly in front of your trafficker / abuser.
- Showing the sign means you are in danger and want someone to call the police.

***Please Visit the Website or Scan the QR Code
to see how the hand sign can be used in various ways***
